PREFACE

1994 BLACK BEAR HUNTING AND HARVEST REPORT

Survey Approach

Resident and nonresident black bear license holders were randomly sampled from our license database. Hunting and harvest data were acquired via telephone for resident license holders and via a mail survey for nonresidents.

Definitions

HUNTERS.....The number of hunters who hunted one or more days
HUNTER DAYS.....Sum of whole days or portions of days hunted
PERCENT SUCCESS.....The number of hunters who killed a bear divided by the total number of bear hunters and multiplied by 100
LOWER.....Lower confidence limit at a level of confidence of 80 percent
POINT.....The estimated value
UPPER.....Upper confidence limit at a level of confidence of 80 percent
BEAR LICENSE.....Indicates black bear license purchased separately and not included with resident Sportsman's License or nonresident Big Game Combination License
COMBINATION.....Indicates resident Sportsman's Combination License or nonresident B10 Big Game Combination License
UNKWN.....A symbol for unknown used to designate unknown sex

Explanations

The black bear hunting and harvest statistics are estimates made from a sample of 7,292 returned questionnaires representing about 29% of the 25,489 black bear license holders. Confidence-interval estimates are given for hunters, hunter days, and total harvest. Confidence intervals are given at the 80 percent confidence level, meaning that the actual value will be between the lower and upper limit in four out of five cases. The relative precision of the estimate increases with the size of the estimate. Statewide estimates have greater relative precision than regional estimates.

All estimates represented are rounded to the nearest whole number. It is for this reason that rows and columns do not always agree exactly with row or column totals given.

There were two changes in hunting regulations and districts beginning in 1992 that affect the interpretation of these black bear hunting and harvest statistics. Region eight was created and the black bear license was removed from the nonresident big game combination license. Several hunting districts from regions three and four were combined to create region eight making hunting and harvest trend data for regions three and

four not comparable between years before and after the creation of region eight. The removal of the black bear license from the big game combination license was the main reason there were 15,036 fewer bear license holders in 1992 than there were in 1991.

Black bear hunting district numbers and boundaries were significantly changed for 1994. The cross reference table below shows the relationships between new hunting district numbers and previous hunting district numbers. Notice that several regions (first digit of district number) were affected by the change. These hunting district changes will affect the interpretation of trends between previous reports and the current report.

1994 ARCHERY HUNTING AND HARVEST REPORT

AUGUST 30, 1995

PREFACE

1994 ARCHERY HUNTING AND HARVEST REPORT

Survey Approach

Resident and nonresident archery permit holders were randomly sampled from our license database. Hunting and harvest data were acquired via telephone for resident license holders and via mail survey for nonresidents.

Definitions

TOTAL HUNTERS.....The number of hunters who hunted one or more days
HUNTER DAYS.....Sum of whole days or portions of days hunted
PERCENT SUCCESS.....The number of successful hunters divided by the
total number of hunters and multiplied by 100
TOTAL KILL.....Estimated total kill for all age/sex classes

Explanations

The archery hunting and harvest statistics are estimates made from a sample of 3,271 returned questionnaires representing about 12% of the 26,183 archery permit holders. Due to the small sample size, estimates are reported only at the regional and state level.

The antler statistics for mule deer, whitetail deer, and elk are actual frequencies within the sample and are not expanded estimates.

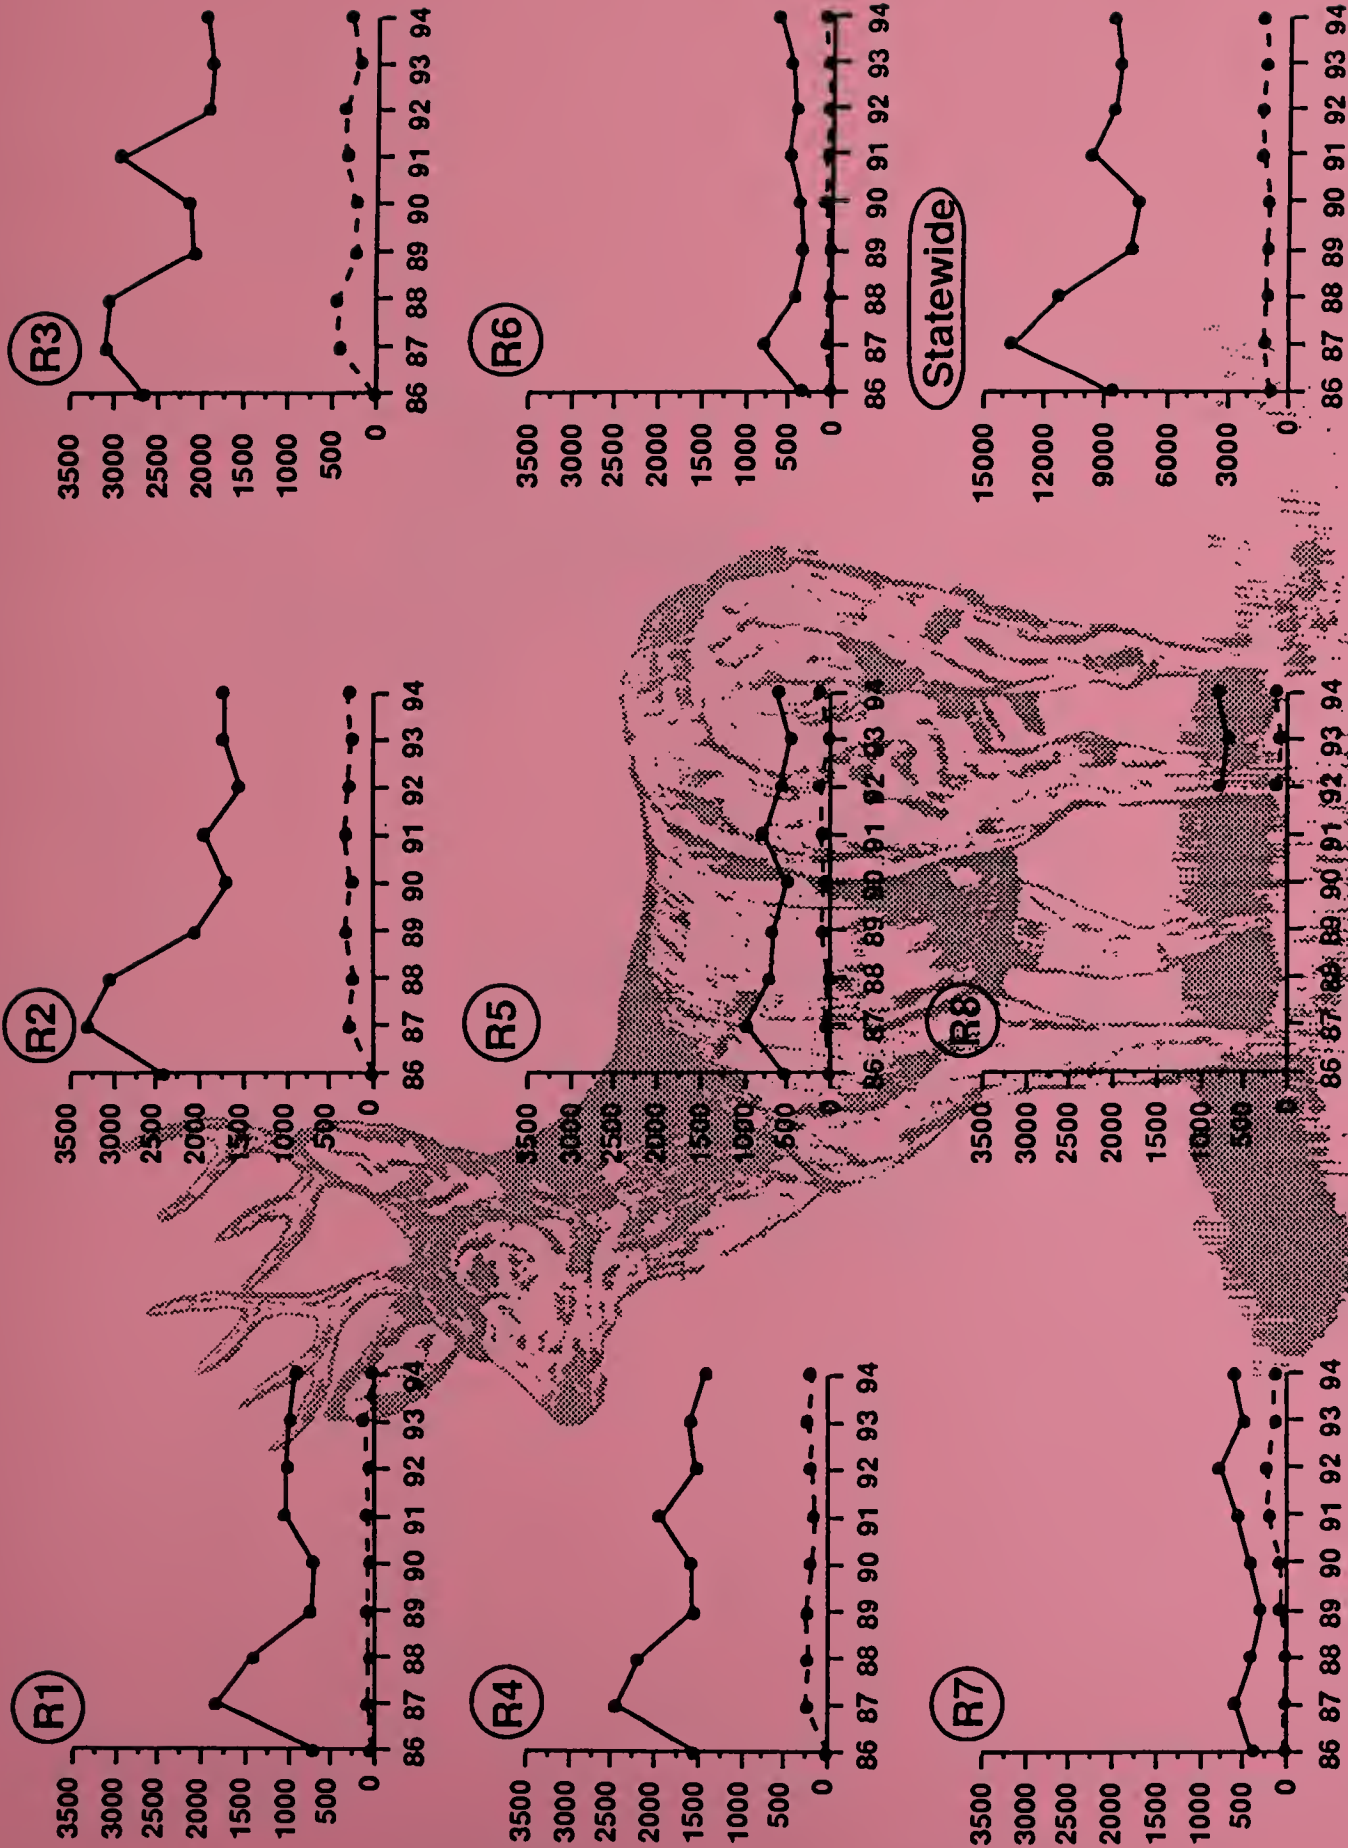

All estimates represented are rounded to the nearest whole number. It is for this reason that rows and columns do not always agree exactly with row or column totals given.

In the archery mule deer and whitetail reports for license years 1987 and 1988, numbers for hunters and hunter days represented deer hunters and were the same for mule deer and for whitetail deer. Percent success for mule deer and whitetail were separate estimates and were calculated as mule deer or whitetail deer kill divided by total deer hunters and multiplied by 100. For license years 1989 - 1994, we have asked for days hunted for mule deer and for whitetail deer separately. Because of this, the estimates for hunters, hunter days, and percent success for the two species are independent and cannot be compared directly with estimates for the years 1987 - 1988.

1994-1995 MOUNTAIN LION HUNTING, HARVEST AND CHASE REPORT
SEPTEMBER 26, 1995

PREFACE

1994-1995 MOUNTAIN LION HUNTING, HARVEST, AND CHASE REPORT

Survey Approach

The mountain lion hunting, harvest, and chase survey was conducted in two phases for 1994-1995. A mountain lion hunting, harvest, and chase questionnaire was mailed to all 1994 mountain lion license holders at the end of the hunting and chase season Sep. 15, 1994 through Feb. 15, 1995. Questionnaires for the hunting and chase season were returned from 1,283 (40%) of the 3,242 people who purchased a mountain lion license. A mountain lion chase questionnaire was mailed to all 1994 mountain lion license holders at the end of the chase only season Feb. 16, 1995 through Apr. 30, 1995. Questionnaires for the chase only season were returned from 1,034 (32%) of the 3,242 people who purchased a mountain lion license. Expanded estimates of hunting, harvest and chase activities were made from the returned sample. Frequency distributions were calculated for answers to the hunting and harvest questions.

Definitions

TOTAL LION LICENSES SOLD.....Total number of licenses sold for year

RESPONSE RECORDS PROCESSED...Number of questionnaire response records returned and processed for each type of season

CONSTANT EXPANSION FACTOR....Response records divided by licenses sold

TOTAL WHO HUNTED OR CHASED...Total number of participants who hunted and/or chased lions

TOTAL WHO HUNTED WITH NO CHASE INFO.....Total number who hunted and/or chased lions but did not complete any chase questions

TOTAL WHO GAVE CHASE INFO....Total number who chased lions whether or not they also hunted lions

Explanations

The relative precision of the estimate increases with the size of the estimate. Regional estimates have greater relative precision than district estimates and the statewide estimates have the greatest relative precision.

All valid response data were used in the estimates even when some data fields were missing. This is the reason for the unknown categories given in the report. Chase activity in an unknown or invalid hunting district within a valid region is represented as "RXX" where R is the regional number 1 through 8. An unknown district in an unknown region is represented as "XXX". The unknown district or region activities are still incorporated into the regional or state totals respectively.

All estimates represented are rounded to the nearest whole number. It is for this reason that sums calculated from the report do not always agree exactly with the totals given.

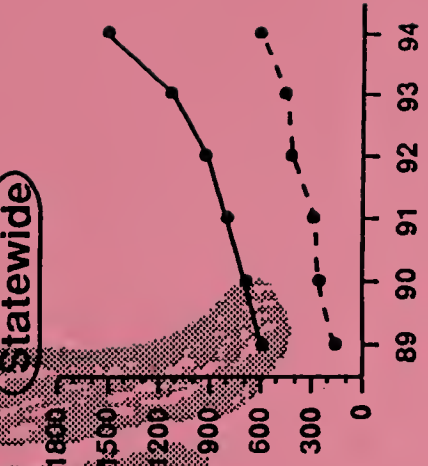

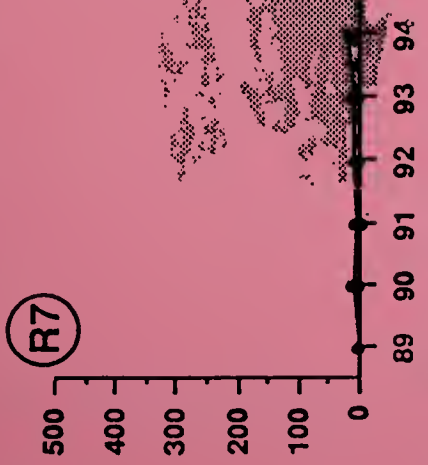

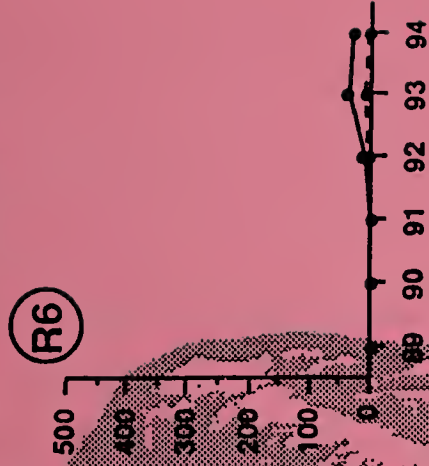

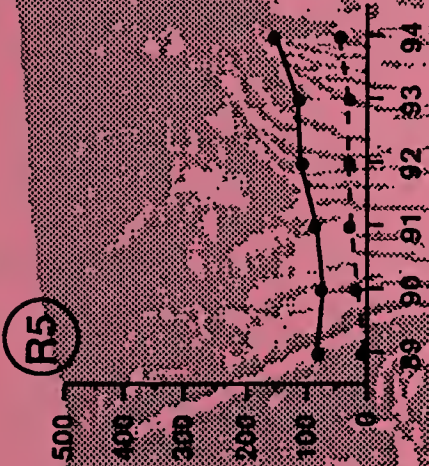

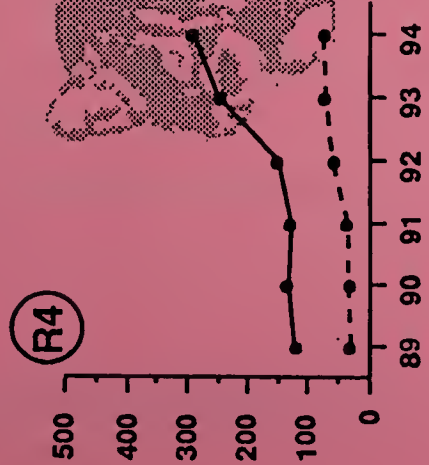

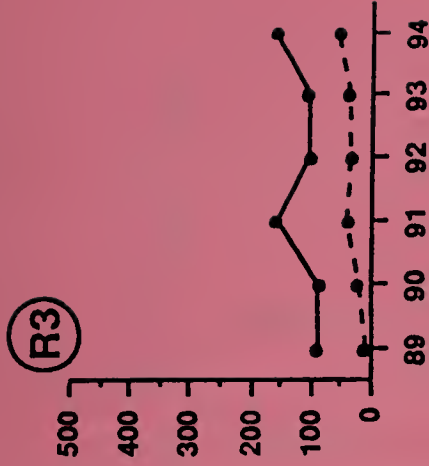

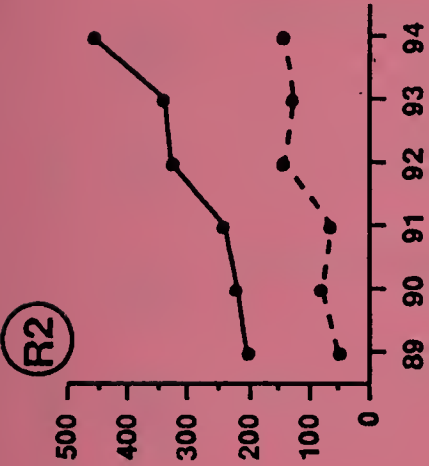

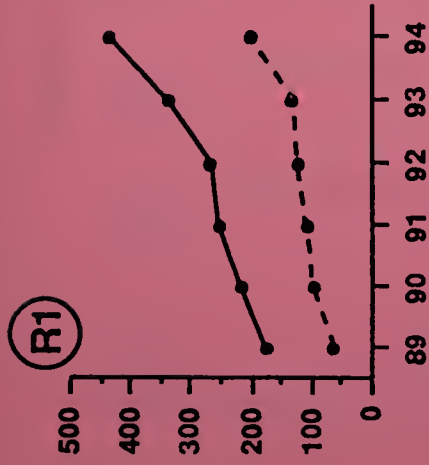

(CONTINUED)

PREFACE (CONTINUED)

Several hunting districts from regions three and four were combined in 1992 to create region eight. This affects trend interpretation for the affected regions.

A refinement was made to the survey and report beginning with this report. As in previous reports, there are separate chase reports for the hunting/chase season and the chase only season. In previous reports the chase statistics table, "CHASE STATISTICS FOR HUNTING/CHASE SEASON", for the hunting/chase season included all hunting and/or chase activities during the hunting/chase season. This table is still included in the current report and is called "HUNTING AND CHASE STATISTICS FOR HUNTING/CHASE SEASON". New in the current report are two additional tables that separate chase activities into hunting only or chase only activities. The two new tables are titled "HUNTING ONLY STATISTICS FOR HUNTING/CHASE SEASON" and "CHASE ONLY STATISTICS FOR HUNTING/CHASE SEASON" and they precede the "HUNTING AND CHASE STATISTICS" table. The "HUNTING ONLY" table includes those activities where the questionnaire respondent indicated they were in an area open to hunting and had a valid hunting license or someone in their party had a valid hunting license. The "CHASE ONLY" table includes those activities where the respondent indicated the area they were in was closed for hunting or that no one participating had a valid hunting license. The two new tables should help separate hunting from chase activities during the hunting/chase season.

1994-1995 TRAPPING AND FUR HARVEST REPORT

SEPTEMBER 18, 1995

PREFACE

1994-1995 TRAPPING AND FUR HARVEST REPORT

Survey Approach

A trapping and fur harvest survey questionnaire was mailed to all resident and nonresident Trapper's license holders. Questionnaires were returned from 929 (42%) of the 2,197 people who purchased a trapper's license during the 1994-1995 trapping season. Expanded estimates of furbearer trapping, hunting, and harvest activities were made from the returned sample.

Definitions

TRAPPERSTotal number of people who set traps for the given species
TRAP DAYSThe sum, for all traps set, of the number of days each trap was set
CATCHTotal number of animals of given species caught by all trappers
TR DAYS / CATCHTrap days per animal caught, defined as total trap days divided by total catch
TRAP OR HUNTERSTotal number of people who participated in trapping and/or hunting and/or houndsman activity
TOTAL HARVESTTotal number of animals of a given species taken by trapping and hunting and houndsman activities
MEAN HARVESTTotal harvest divided by number of trap or hunters
SPECIES % COMP.An abbreviation for species percent composition which is defined as catch for individual species divided by total catch for all species and multiplied by 100

Explanations

Several changes were made in the trapping and fur harvest survey, analysis, and report for 1992-1993. One major change was that data were collected by county and estimates were reported by county and fur trapping district. In reports for the trapping seasons 1989-1990 through 1991-1992, Deer, elk, bear, and lion hunting districts were used and estimates were reported by administrative region. Reports previous to 1989-1990 used trapping districts which have been discontinued. The second major change was the addition of six species of furbearers to the survey and report. The six species added were marten, fisher, wolverine, bobcat, lynx, and otter. These six species require harvest registration forms. The registration forms have been the primary source of information for these species in the past. The inclusion of these species in the survey will give additional information on effort. Harvest estimates for the six "registered" species will not always agree exactly with the numbers registered, because this report gives estimates made from a sample of all trappers.

(CONTINUED)

PREFACE (CONTINUED)

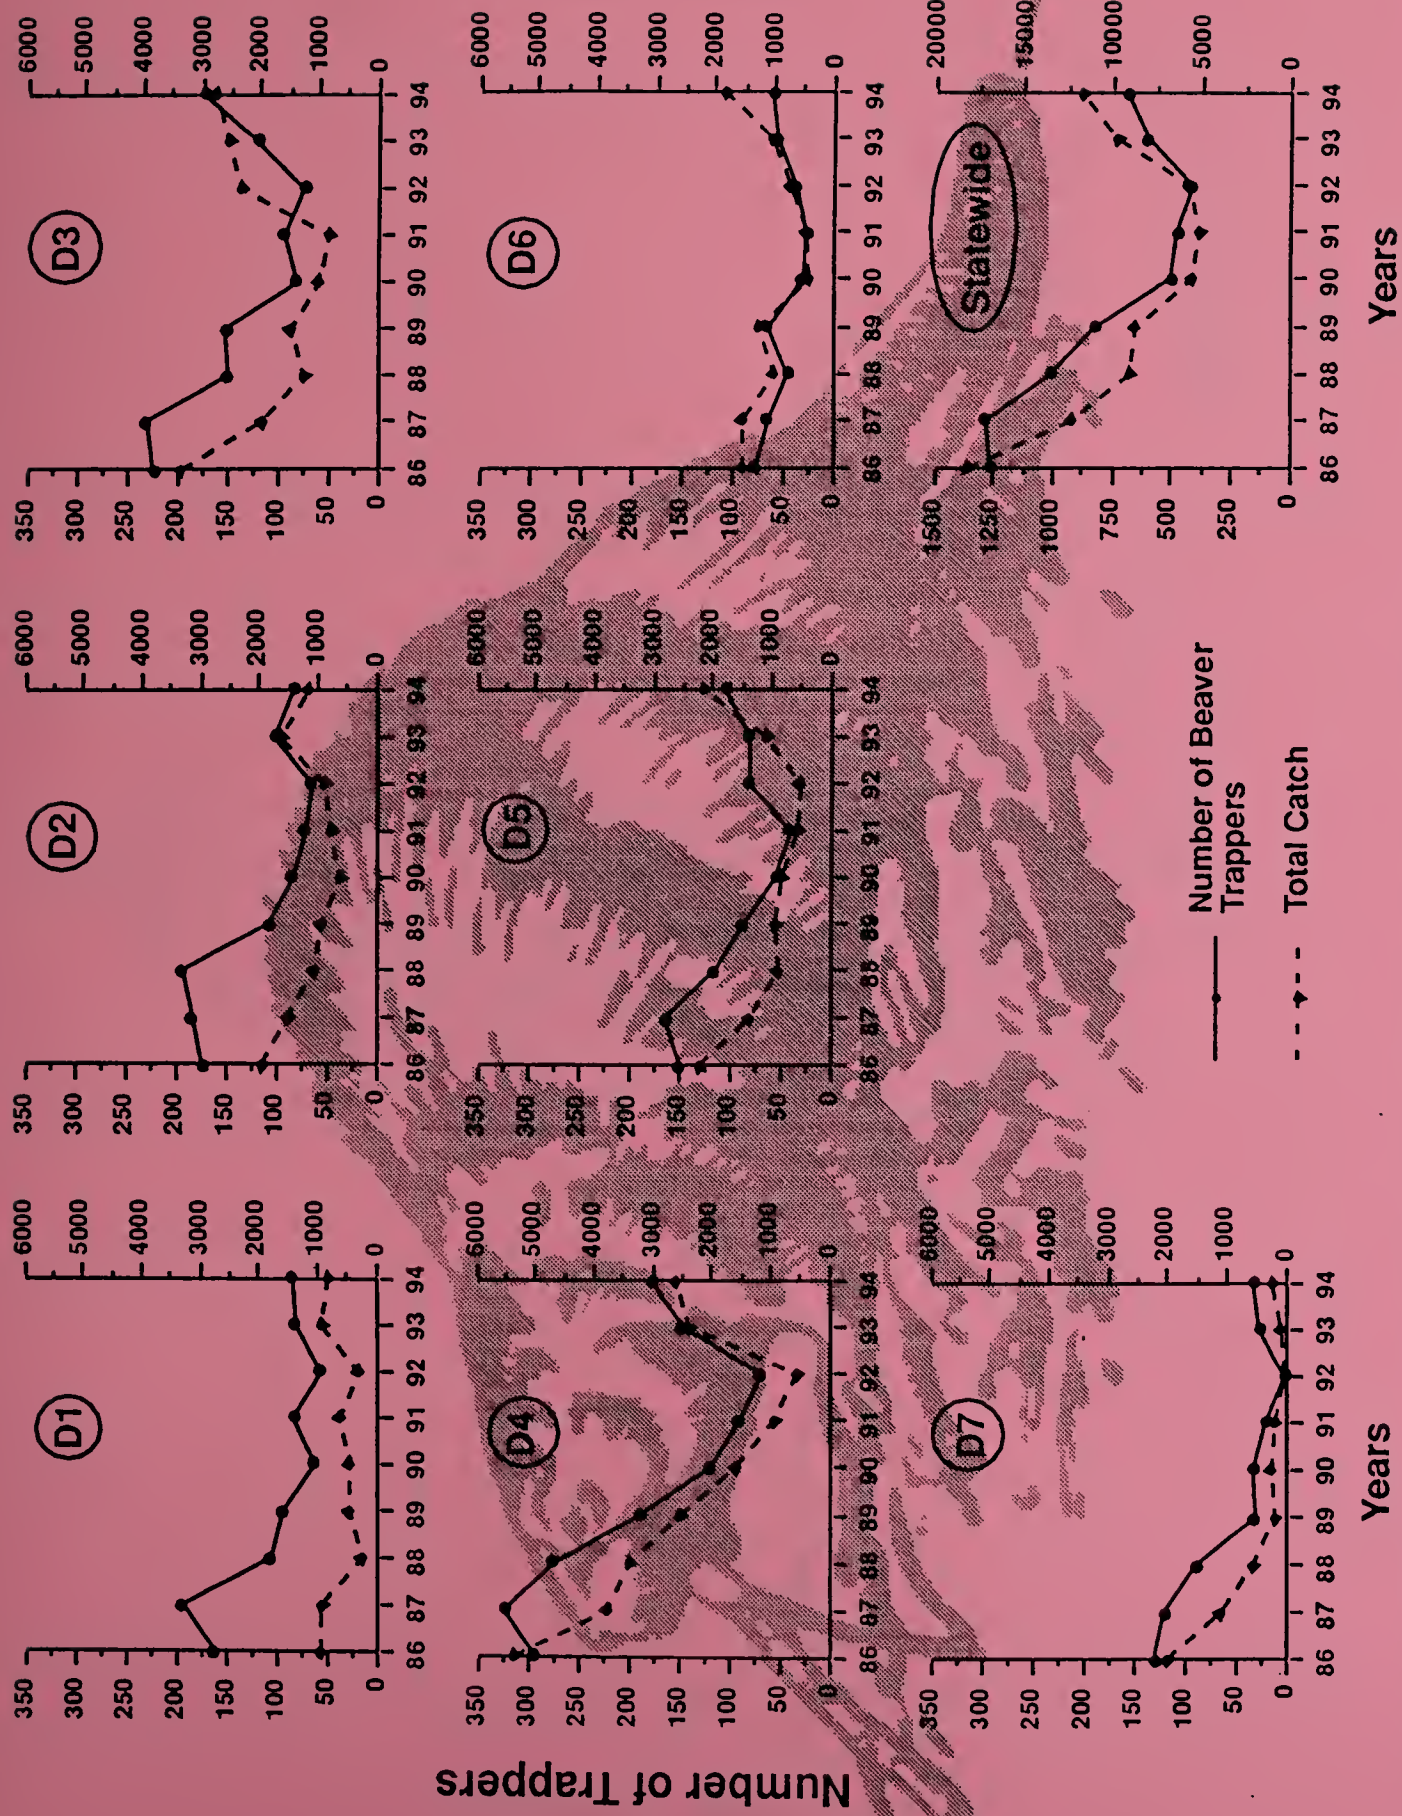

Another major change in the survey and report was the addition of hunting and houndsman activities and harvest. Also, The questionnaire beginning with the 1993-1994 season was simplified in the section requesting trapping effort, and this may have resulted in more accurate reporting than in the previous survey. This may explain some of the increase in trap days reported.

This report for the 1994-1995 trapping season is the same format as last year's report for the 1993-1994 season except that the order of the some of the species has been changed.

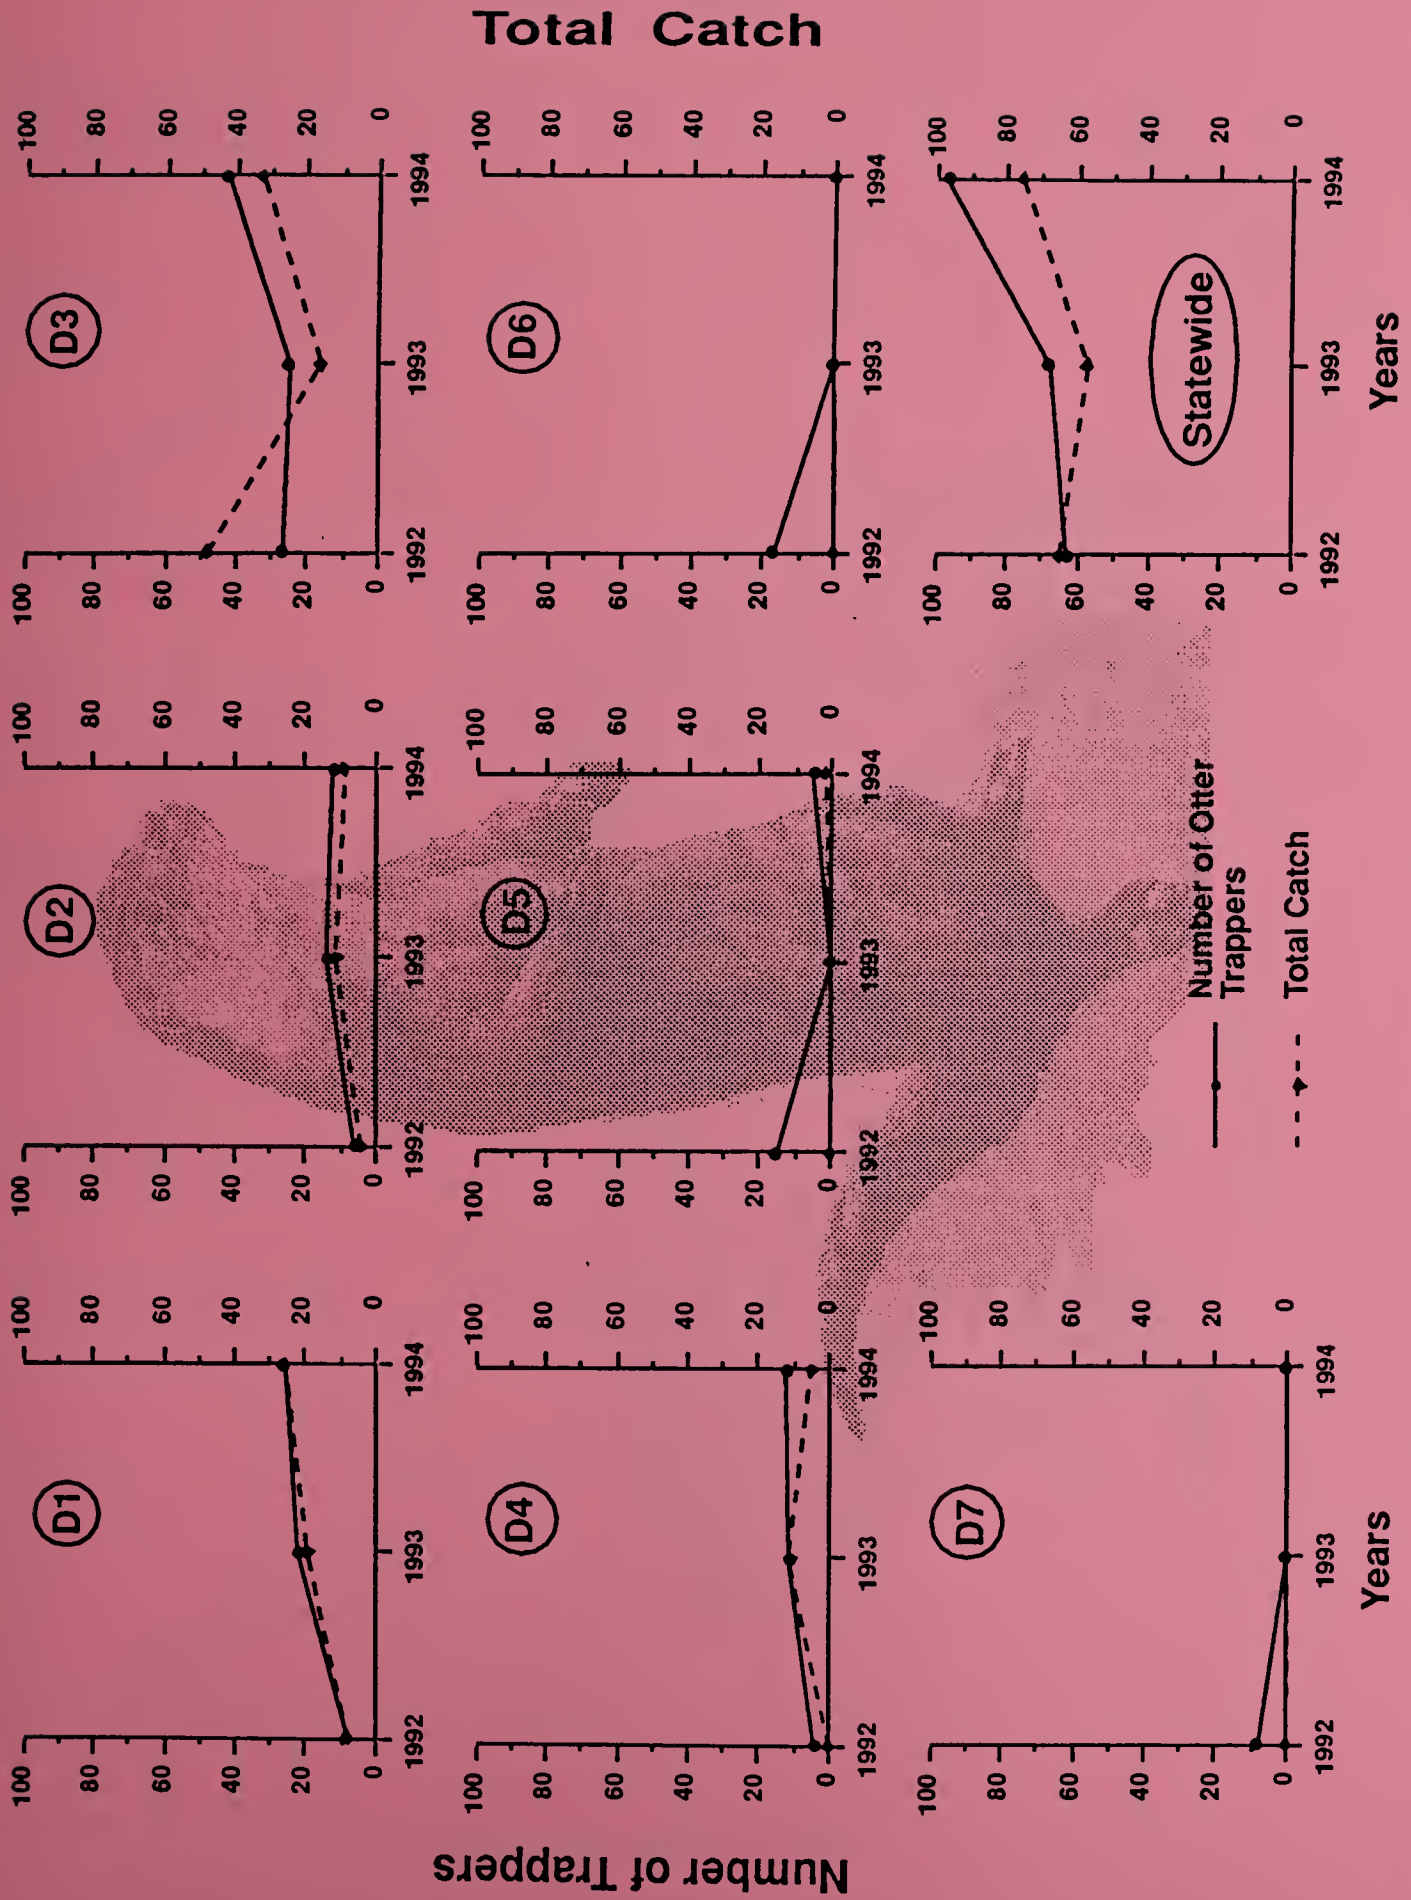

The relative precision of the estimate increases with the size of the estimate. Trapping district estimates have greater relative precision than county estimates and the statewide estimates have the greatest relative precision.

Questionnaire response data with missing or invalid county information was still used in the analysis and is reported as "DIST. UNKNOWN"

GUIDE TO USING THE REGULATIONS

The regulations are organized into three main segments, which are color coded to help you find the information you seek more quickly. These segments and their coordinating colors are:

General Information - All segment color coded in green are designated to provide sportspersons with general information on license purchases and big game hunting rules and regulations. Also, answers to some of the most common questions asked by sportspersons, as well as Montana's sunrise and sunset tables, can be found under these green color-coded segments. In addition, the map segments under a green color bar will define regional administrative boundaries and help you to easily locate each regional headquarters.

General Big Game Licenses and Season Dates - All segments color coded in gold are designed to provide sportspersons with detailed species-specific information for the type of license required to hunt: deer, elk, black bear and mountain lion. Also, each hunting district's general season and archery season opening and closing dates, as well as each hunting district's bag limits can be found under these gold color-coded segments.

Special License and Permit Drawings - All segments color coded in blue are designed to supply sportspersons with the information they will need to properly apply for all licenses and permits that are awarded through special drawings. The special drawings are for a limited quota of licenses and permits for deer, elk, antelope, moose, sheep and goat. Under these blue color-coded segments, sportspersons will also find specific information on season dates, tentative harvest quotas set by each hunting district and the sportsperson's reporting requirements after an animal is harvested.

By order of the Montana Fish, Wildlife and Parks Commission, the seasons, limits and regulations listed here in shall govern the 1994 deer, elk, black bear, antelope, moose, bighorn sheep, mountain goat and mountain lion hunting seasons. These regulations are valid March 1, 1994 through February 28, 1995, and were adopted by the Fish, Wildlife and Parks Commission on February 8, 1994.

All licenses/permits must be signed before they are valid. All licenses are non-refundable non-transferable. The 1994 license year runs March 1, 1994, through February 28, 1995.

All hunters ages 12-17 years must show proof of completing a hunter education program before purchasing any hunting license.

Adult (18 years of age or older) bowhunters must show proof of an NBEF Bowhunter Education Certificate or present any prior years bow hunting/archery stamp, tag, permit or license from any state or province to purchase a Montana bow and arrow license.

General Regulations

Checking Stations

All sportspersons are required to stop as directed at all designated check stations on their way to and from hunting and fishing areas, even if there is no game or fish to be checked.

Closed Areas

- State Game Preserves and National Parks are closed to hunting of big game animals. For hunting privileges on Federal Wildlife Refuges, inquire at the local refuge office. Big game hunting privileges on Indian Reservations are limited to tribal members only. Closure of the Ft. Peck Reservation to big game hunting by non-tribal members was lifted on Trust lands for 1994. The FW&P Commission adopted big game regulations to allow the taking of four (4) antelope subject to terms of a Cooperative Agreement between the Tribes and FW&P.

- Wildlife Management Areas with big game winter range are closed to public entry from the day following the end of the general deer/elk season or December 1, whichever is later, to May 15 each year, as posted.

Clothing Color

- Any person hunting or accompanying a sportsperson as an outfitter or guide must wear a minimum of 400 square inches of hunter orange (fluorescent) material above the waist, visible at all times.
- The hunter orange requirement is not in effect during the special archery seasons, which are specifically listed in these regulations as: "ARCHERY ONLY." Bowhunters pursuing big game animals with bow and arrow must wear a minimum of 400 square inches of hunter orange (fluorescent) above the waist if firearm season is open in the hunting district and for the species you are pursuing.

Evidence of Sex Requirements

- It is illegal to possess or transport the carcass of any big game animal unless evidence of the animal's sex and species remains naturally attached to its carcass or a portion of the carcass.
- In most cases, the easiest way to meet this requirement is to leave the animal's head attached to the carcass. However, if the animal's head is removed, some other evidence of sex must remain **naturally attached** to the carcass or a portion of it.
- The following are considered lawful evidence of sex:

- Horned or Antlered Game Animals:** Male--head with the horns or antlers naturally attached, penis, testicles or scrotum. Female--head or udder (mammarys).
- Bears and Mountain Lions:** Male--testicles or baculum. Female--vulva.
- Evidence of an animal's sex and species must be retained until the animal's meat is processed (cut and wrapped) or until a bear or mountain lion is checked by a department employee or delivered to a taxidermist.
- Sportspersons harvesting a big game animal, if required by a department employee, must physically return to the kill site for inspection and on demand show complete head.

- Adult (18 years age or older) bowhunters must show proof of NBEF Bowhunter Education Certificate or present any prior years bowhunting/archery stamp, tag, permit or license from any state or province to purchase a Montana bow and arrow license.

- Montana law adopted in 1993 requires members of the armed forces and their dependents taking advantage of the 30-day residency exception to present a Montana Hunter Education Certificate or similar certificate from any state or province when purchasing any Montana license.

Hunting Hours

Authorized hunting hours for the taking of big game animals begins one-half hour before sunrise and ends one-half hour after sunset each day of the hunting season. See official sunrise-sunset table on page 54 of these regulations.

Littering

A person convicted of littering while hunting, fishing or camping shall forfeit their license or privileges to hunt, fish or camp within Montana for a period of one year.

Marked Animals

It is legal to shoot big game animals that have radio collars; neck bands or markers, but markers and radio collars must be returned to the Department of Fish, Wildlife and Parks.

Motorized Vehicle Travel

A common question asked by a sportsperson is "May I drive off established roads and trails to retrieve game?" There is no standard answer. In all cases, when on private lands, sportspersons must first obtain permission from the private landowner. In the case of public lands, the answer varies. BLM public lands are open to motorized travel unless designated closed. On National Forest lands, restrictions to motorized travel are described on Travel Plan maps available at local U.S. Forest Service offices. On National Wildlife Refuges, all off-road travel is prohibited. For further information, contact the appropriate land governing agency. See page 5 for addresses and phone numbers.

Outfitters and Guides

- Outfitters and guides are licensed by the Montana Department of Commerce. For information verification or a complete listing of licensed outfitters and guides telephone the Department of Commerce at (406)444-3737.
- Any outfitter utilizing federal lands or lands not held in fee title by the outfitter must be licensed by the Department of Commerce.
- It is illegal to hire an outfitter not licensed by the Department of Commerce.

Property Laws

- Permission to Hunt Big Game --** Montana Law requires that big game hunters must have permission of the landowner, lessee or their agent before hunting big game animals on private property, regardless of whether the land is posted or not.

Traps--Do Not Disturb

Montana trappers are permitted to trap furbearing animals during designated seasons; predatory, and some non-game animals most of the year. Sportspersons afield who find a trap are prohibited from disturbing the traps or trapped animals.

Weed Free Hay Programs

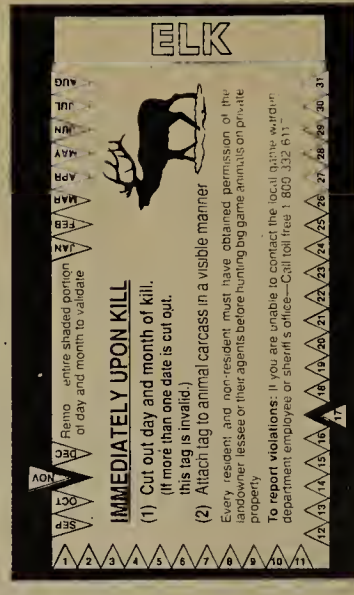

- Certain areas of Montana require the use of certified weed free hay, straw and pellets for livestock to prevent the spread of noxious weeds.
- Please contact offices of the Montana Department of Fish, Wildlife and Parks, U.S. Forest Service, Bureau of Land Management and Montana Department of Agriculture for information about the area where you will be hunting.
- Please see page 5 if you are transporting horses or mules into Montana.

AVOID VIOLATIONS OF THE LAW

Immediately after killing a big game animal, all hunters must properly validate the appropriate license/tag and securely attach it to the animal so that it is clearly visible.

Proper validation is easy:

- 1) Locate the appropriate month and day the animal was killed and completely cut away (notch out) the month and day designations. The license/tag shown below, for example, has been properly validated for an animal taken on November 17.
- 2) **Be Careful!** The correct and appropriate month and day designations must be removed completely from the license/tag. Removing more than one month or one day designation invalidates the license/tag.

- Sportspersons are prohibited from wasting any part of any game animal, game bird or game fish that is suitable for food. Game animal parts that are defined as being "suitable for food" are: all of the four quarters above the hock, including loin and backstrap. (The law does not apply to black bear and mountain lion.)
- Sportspersons are prohibited from shooting or attempting to shoot a game animal from a motorized vehicle (car, truck, boat, snowmobile, motorcycle, all-terrain-vehicle, airplane, etc.) even if the vehicle is not moving.

Firearms

- **Caliber--** There is no caliber limitation during the general big game hunting season (except as specified under shotgun) for the taking of big game animals in Montana. However, the use of poisonous, explosive or deleterious substances on or in any bullet or projectile is prohibited. Match the caliber and firearm to the size of the animal hunted.

- **Shotgun--** Sportspersons are prohibited from shooting deer or elk with shotguns, except with loads of O buck, OO buck or rifle slugs.

Restrictions for traditional handgun and muzzleloader areas only:

- **Muzzleloader--** firearm must meet the following criteria: 1) not capable of being loaded from the breech of the barrel; 2) not loaded with any prepared paper or metallic cartridge; 3) charged with black powder, pyrodex or an equivalent; 4) is ignited by a percussion, flintlock, matchlock or wheellock mechanism; 5) must be minimum of .45 caliber; 6) no more than two barrels; and 7) lead projectile only, no sabots.

- **Handguns--** "traditional" handgun must meet the following criteria: 1) not capable of being shoulder mounted; 2) has a barrel of less than 10 1/2 inches; 3) chambers a straight wall cartridge, not originally developed for rifles.

Game Limits

No person may kill more than one big game animal of any one species in any one license year, unless otherwise specified.

Hunter Education--Firearm and Archery

- Youth under the age of 17 years applying for the 1994 special drawings must be at least 12 years of age before September 15, 1994, and provide required proof of successfully completing a Hunter Education Program at the time of applying for the special drawings.

- Resident sportspersons 12-17 years of age are required by law to have a Montana Hunter Education Certificate of Competency in the safe handling of firearms before they may purchase a hunting license. The Certificate of Competency is awarded to resident youths who have successfully completed Montana's Hunter Education Program.

- New residents of Montana 12-17 years of age need to check with their local Fish, Wildlife and Parks Office to determine if their out-of-state hunter education certificate can be accepted and to receive a Montana Hunter Education Certificate.

- Non-resident youths 12-17 years of age are required by law to submit a copy of their home state hunter education certificate verifying successful completion of the course when applying for any hunting license in Montana.

- Both resident and nonresident youths 12-17 years of age are required to purchase the bow and arrow stamp to archery hunt during the ARCHERY ONLY season, and must provide a Certificate of Competency in the safe handling of bow hunting tackle from the National Bowhunter Education Foundation (NBEF), in addition to the Certificate of Competency in the safe handling of firearms.

- **Obtain Permission Early --** Approximately 70 percent of Montana's hunting districts are comprised of private land. In some hunting districts, it is difficult to obtain access to private lands. Sportspersons should secure landowner permission before applying for a special license/permit in these areas.

- **Trespass--** Montana law states that lands can be closed to the public either by posting the land or through verbal communication by landowners or their agents. If permission is granted, the landowner may revoke permission by personal communication at any time. An orange post means no trespassing without permission.

- **- Posting Requirements--** Notice denying entry to private land must consist of written notice on a post, structure or natural object or by painting a post, structure or natural object with at least 50 square inches of fluorescent orange paint. In the case of a metal fencepost, the entire post must be painted. This notice must be placed at each outer gate and all normal points of access to the property, as well as on both sides of a stream where it crosses an outer property boundary line. Sportspersons are reminded that they must have landowner permission before hunting big game animals on private property, regardless of whether the land is posted or not.

Tagging and Transporting Big Game

- **Tagging--** Immediately after harvesting a game animal, sportspersons must cut out the proper month and the day of the harvest from the appropriate license/tag and attach to the animal in a secure and visible manner. If more than one date is cut out, the license/tag is invalid. The properly validated license/tag shall remain with the meat until consumed (including cold storage). If quartered, the license/tag should remain with the carcass or largest portion of the carcass. The license/tag is to remain attached to the hide of a bear or mountain lion until it is tanned.

- **Transporting--** Properly tagged game animals that comply with the "Evidence of Sex Requirements" and that were lawfully taken by the license holder may be transported by an individual other than the license holder. The name, address and phone number of the person who killed the animal should accompany the carcass. It is a violation of the Federal Lacey Act to transport an illegally taken game animal across state boundaries. Federal Lacey Act violations could result in a criminal penalty of \$20,000 and 5 years in prison. All shippers of fish, game or nongame birds, game animals, furbearing animals, the skins of furbearing animals or predator animals, or parts thereof are required to label all packages offered for shipment by parcel post, common carrier (airlines or UPS, etc) or otherwise. The label should be securely attached to the address of the package and shall plainly indicate the names and addresses of the consignor and consignee and the complete contents of the package (87-3-114, MCA).

- Sportspersons are prohibited from shooting or attempting to shoot a game animal on, from or across a public road or from the public right-of-way (shoulder, berm or barrow pit) along those highways.
- Sportspersons are prohibited from transferring their license to another person or using a license issued to another person.

LICENSES & GENERAL INFORMATION

- Sportspersons may purchase one deer A and one or more deer B licenses. There are no requirements regarding the order of obtaining nor the order of filling either license.
- Sportspersons are limited to one deer A license per year, which is included in the resident's Sportsman License, the nonresident Big Game Combination License and the nonresident Deer Combination License.
- Nonresident Deer Combination License holders that are landowner sponsored are reminded the license entitles them to hunt deer and upland game birds only on the land owned by the landowner sponsor. This does not include leased or public land. The license is valid statewide for fishing. A general upland game bird license would be required to hunt statewide for upland game birds. The upland game bird license may be purchased at any Fish, Wildlife and Parks office or at most license agents throughout the state.
- Sportspersons may hold and fill more than one deer B license, subject to all specifications on the license issued. Opportunities to obtain a deer B license(s) include:

SPECIAL SEASONS & TENTATIVE QUOTAS

- Application must be postmarked by the U.S. Postal Service no later than June 1.
- Both resident and nonresident sportspersons are eligible to apply for the following licenses and permits awarded through the special drawings. Nonresidents are limited to, but not guaranteed, 10 percent of a district quota.
- Nonresidents must hold a Big Game Combination License or a Deer Combination License to be eligible to apply for a special deer permit.
- Sportspersons must hold a deer A license to use a deer permit awarded through the special drawings.
- Holders of a landowner sponsored Deer Combination License may apply for a special deer permit only in the hunting district in which they are authorized to hunt deer.
- A special deer permit is not a second license. All permits are issued through the special license and permit drawings and must be used in conjunction with a valid deer A license. Hunting districts offering a deer permit are: 240-01, 291-01, 441-01, 455-01, 530-01, and 650. **Exception:** in hunting district 260-03, the deer permit must be used with a deer B license.
- Because some licenses and permits are valid only in a portion or portions of specified hunting districts, sportspersons should carefully note the district choice for which they are applying. A copy of the legal descriptions for "portion of district" areas is available at any Fish, Wildlife and Parks Office or by mail from the Helena Headquarters, Wildlife Division, P.O. Box 200701, Helena, MT 59620-0701.

LANDOWNER PREFERENCE

- Montana landowners who qualify may receive preference in the deer B license and/or deer permit special drawings. To qualify, one must be the owner of record or be contracting to purchase at least 160 acres of land within the hunting district applied for. If the license is valid for a portion of the hunting district only, the landowner must own land within that portion. The land must be used primarily for agricultural purposes.
- Preference is available to resident and nonresident landowners and can be designated to a blood or marriage related individual or employed ranch manager. Only one person may use or designate preference in a partnership or corporation.

Elk

SPECIAL SEASONS & TENTATIVE QUOTAS

- Applications must be postmarked by the U.S. Postal Service no later than June 1.
- Both resident and nonresident sportspersons are eligible to apply for the following licenses and permits awarded through the special drawings. Nonresidents are limited to, but not guaranteed, 10 percent of a district quota.
- Residents and nonresidents are required to purchase a general elk license prior to applying for a special elk permit or the A-7 antlerless elk license.
- A sportsperson who receives a special permit to hunt antlerless elk during all or any portion of the regular season (Oct. 23 - Nov. 27) is restricted to taking only an antlerless elk in the district or the portion of a district for which the permit is valid (whether during the general or ARCHERY ONLY season). Permit holders are entitled to hunt elk, as specified in the 1994 big game hunting regulations, in all other elk hunting districts OR if your permit is valid for a portion of the district only, in all other portions of that hunting district (except those districts or portions of district restricted to "hunting by permit only").
- This restriction also applies if a permit is valid for only a portion of the regular season (for example, Oct. 23-Nov. 6 or Nov. 15 - Dec. 15).

- Because some licenses and permits are valid only in a portion or portions of specified hunting districts, sportspersons should carefully note the district choice for which they are applying. A copy of the legal descriptions for "portion of district" areas is available at FWP Regional Headquarters and by mail from the Helena Headquarters, Wildlife Division, P.O. Box 200701, Helena, MT 59620-0701

LANDOWNER PREFERENCE

- Montana landowners who qualify may receive preference in the elk permit and A-7 antlerless elk license special drawings. To qualify, the applicant must own or be contracting to purchase at least 640 acres of contiguous land used by elk or where elk are known to occur at anytime during the year. If the permit is valid for a portion of the hunting district only, the landowner must own land within that portion.
- Preference is available to resident and nonresident landowners and can be designated to a blood or marriage related individual or a person employed by the landowner. Only one person may use or designate preference in a partnership or corporation.

What is an A-7 License?

- An A-7 license is a special type of elk hunting license that allows the holder to shoot **only antlerless elk** in the district for which the license is valid. A-7 licenses are available in only a very limited number of areas and, in general, in areas where no other opportunities to harvest antlerless elk exist.
- If a sportsperson applies for and receives an A-7 license, these conditions apply:
 - 1) Sportspersons may not hold both a general elk license and a special A-7 license.
 - 2) The holder of an A-7 license must hunt **only antlerless elk** and must confine their elk hunting **only** to the hunting district for which their A-7 license is valid.
 - 3) They may not hunt elk (bull or antlerless) anywhere else in the state during the 1994 season.
- A-7 licenses are available only through the annual special drawings. Both residents and nonresidents may apply for these licenses. If successful in drawing an A-7 license, the sportsperson will be sent a letter of notice along with A-7 license purchasing information.
- The following districts offer A-7 antlerless elk licenses through the special drawings: 204, 240, 250, 261, 270, 282, 298, 311, 329, 520 and 843.

LICENSES & GENERAL INFORMATION

- Antelope licenses are awarded through special drawings except for unlimited, multi-district, doe/fawn licenses.
- Applications must be postmarked by the U.S. Postal Service no later than June 1.
- License holders may legally take one antelope subject to all specifications on the license issued.
- Sportspersons may apply as a party for antelope licenses in groups of up to five. If successful, all party members will receive a license.
- Antelope doe/fawn licenses remaining after the drawing may be offered to the successful either sex license holders.

- Preference is available to resident and nonresident landowners and can be designated to a blood or marriage related individual or employed ranch manager. Only one person may use or designate preference in a partnership or corporation.

Disabled Resident Preference

- Legislation established a statewide total of 25 special antelope licenses to be issued through a special drawing process to Montana residents who are permanently physically disabled and nonambulatory as defined by ARM rule 12.3.106. These licenses are available only in those antelope hunting districts that have a quota of 50 or more licenses.
- Applicants must apply on department provided forms available at all Regional Fish, Wildlife and Parks Headquarters and the Helena Headquarters.
- Applications must be postmarked by the U.S. Postal Service no later than June 1.

Definitions

- Doe/Fawn - any antelope with horns less than four inches in length measured from the top of the skull.

Closure

Closure of the Fort Peck Reservation to big game hunting by nontribal members was lifted on Trust lands for 1994. The FW&P Commission adopted big game regulations to allow the taking of four (4) antelope subject to terms of a Cooperative Agreement between the Tribes and FW&P.

Multi-region Doe/Fawn Antelope License

- Sportspersons may purchase only one multi-region doe/fawn antelope license per year. This may be in addition to applying for an antelope license through the special drawing.
- Licenses are available beginning early August from license agents in hunting districts beginning with the numbers 4, 6 & 7 and from all Fish, Wildlife and Parks offices.
- Licenses are valid for doe/fawn antelope only.

Sheep

There are two types of bighorn sheep licenses: Limited and Unlimited.

Limited Licenses - these license are awarded only through the special drawing and are designed to limit the number of sportspersons in a specific hunting district(s). Sportspersons may apply for one limited license area only and it must be their first and only district choice, with the exception of an adult ewe which may be listed as a second district choice.

- Legislation states that applicants who receive a limited either sex or legal ram license are not eligible to receive another sheep license for the next succeeding 7 years. For example, if you received one of the limited either sex or legal ram sheep license in 1993, you may not apply for another sheep license until 2001.

Unlimited Licenses - These licenses are awarded only through the special drawing process. The unlimited license area must be listed as the first and only choice.

General Information for Both Limited and Unlimited Licenses

- Applications must be postmarked by the U.S. Postal Service no later than May 1.
- Each bighorn sheep license is valid in the hunting district(s) and for the time period specified on the license.
- License holders may legally take one bighorn sheep, subject to all specifications on the license issued.
- A sportsperson harvesting a bighorn sheep must, if required by the department, physically return to the kill site for inspection and on demand show the complete head and cape intact.
- A sportsperson harvesting a bighorn sheep with a license valid for a "legal ram" must not alter the head and horns as to affect determination of legality.
- A sportsperson harvesting a bighorn ram must personally present the complete head and cape intact within 48 hours to any Fish, Wildlife and Parks office, game warden, or designated employee in the administrative region where the bighorn ram was taken. At that time, a transportation permit will be issued.
- Bighorn ram horns greater than one-half curl must be plugged or pinned at any Fish, Wildlife and Parks office within 10 days after harvest. A listing of designated personnel and phone numbers will be provided to all bighorn sheep license holders.
- There is no ARCHERY ONLY season for bighorn sheep.
- It is illegal to possess a sheep head picked up in the wild.
- Legislation authorizes the Fish, Wildlife and Parks Commission to provide for the auction of a bighorn sheep license each year.
- This license authorizes the sportsperson to take a "legal" or greater ram in any district of their choice. This license is not a part of the seasons proposed and if this license holder is successful, the sheep will not be counted against the district quota. The license holder may only hunt in areas open to hunting (i.e. if an unlimited area closes due to reaching the quota, the license holder may not hunt in that area).

JUDGING A "LEGAL RAM" (3/4 Curl)

When a straight line extending from the front base of the horn through any portion of the eye opening intercepts any portion of the horn, the ram is legal. If the horn is not long enough to be intercepted by the line, the ram is not legal.

Base of the horn shall be considered as the point where the horn meets the hairline of the head. See illustration to the right.

Determination of a legal ram should be made from a broadside view of the head.

Successful applicants for sheep should contact this department if they need the Montana Guide to Bighorn Sheep.

LIMITED LICENSES

Both resident and nonresident sportspersons are eligible to apply for the following licenses and permits awarded through the special drawings. Nonresidents are limited to, but not guaranteed, 10 percent of a region quota.

Please check legal descriptions for hunting district boundaries.
In 1994, boundary changes were made to a number of hunting districts.

What can I do if I lose my license?

Duplicate licenses may be obtained from your local game warden or from a Fish, Wildlife and Parks office by filing an affidavit stating your original license is beyond recovery. Upon payment of the specified fee, you may be issued a duplicate. Duplicate licenses are issued at the time of application.

What are Montana's residency requirements?

"Resident" means any person who has been a legal resident in the State of Montana for six (6) consecutive months immediately prior to purchasing a license, and who does not use resident privileges in any other state or country.

What is the difference between a license and a permit?

Licenses and permits are **not the same**. A license affords the holder the opportunity to kill a game animal, as specified on the license. A permit, on the other hand, merely awards the holder special privileges. **A permit is not a second license**. All permits are issued through the annual special license and permit drawings and must be used in conjunction with a valid hunting license.

What is the difference between a deer A and a deer B license?

- The deer A license is valid for one deer during the general season and can be utilized in any deer hunting district in the state for the species and sex indicated for that hunting district under the general season regulations. There are some exceptions to this general statement and a sportsperson should check the regulations specific to the hunting district in which they wish to hunt.
- The deer B license is valid for one deer subject to restrictions of seasons, species, sex and hunting district(s). The deer B license is most often valid for antlerless deer. More than one deer B license per sportsperson may be available in some hunting districts.

What Are the Dates for the 1995 Season?

For your convenience in planning future hunts, the season dates for 1995 season have been set. To receive a copy of these dates, please write: Dates, Wildlife Division, P.O. Box 200701, Helena, MT 59620-0701.

May I hunt with a bow and arrow during rifle season?

Yes, but you must conform to the rifle season regulations. This includes wearing a minimum of 400 square inches of hunter orange (fluorescent) material above the waist.

What is the special drawings process?

In response to hunter requests for a longer notification period, the MOOSE, SHEEP & GOAT drawings will be held earlier. In order to do this, there will be two separate applications and two different deadlines. Please note the schedule below:

Application Deadlines

Moose, Sheep & Goat: postmarked no later than May 1, 1994

Deer, Elk & Antelope: postmarked no later than June 1, 1994

Drawing

Moose, Sheep & Goat: Second week in June

Deer, Elk & Antelope: Second week in August

Notification:

Moose, Sheep & Goat: Mailed third week in June
Deer, Elk & Antelope: Mailed third week in August

Refunds:

Moose, Sheep & Goat: Mailed final week in June**
Deer, Elk & Antelope: Mailed final week in August
**If an applicant is unsuccessful in the drawings, money will be refunded unless there is a valid obligation owed to the State of Montana. If valid obligation exists the refunds will be retained by the State Auditor and applied against that amount.

Surplus licenses:

Information regarding surplus licenses will be made available the end of August.

PLEASE DO NOT CALL FOR SPECIAL DRAWING

RESULTS. However, if you do not receive your license or refund within a reasonable time after the dates listed above, call special licensing at (406)444-2950.

What are block management areas?

The block management program is a cooperative effort between private landowners, the Department of Fish, Wildlife and Parks and hunters to provide free hunting opportunities on private land. Since 1985, over 5 million acres of private and previously inaccessible public and state lands have been opened for hunting. There are Block Management Areas (BMA's) in all regions of the state with the majority of them in eastern Montana (Region 7).

The block management program is currently undergoing a review which may result in operational changes. Hunters interested in learning about block management opportunities for the 1994 hunting season should contact the regional offices which administer the area the hunt is planned. Specific information on areas enrolled for this year and specific hunting opportunities will not be available until September 1. For general information on the block management program, contact the Field Services Division at (406) 444-2602.

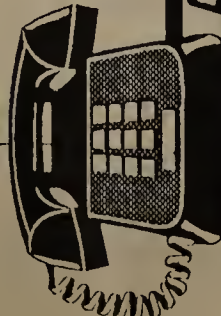

Where may I obtain detailed maps?

The Department of Fish, Wildlife and Parks does not provide any maps other than those included in these regulations. Agencies listed below may be contacted to supply area maps. Maps range in price from \$1.25 to \$5.00.

- Individual National Forest and travel maps of each National Forest that show restrictions on vehicular use can be obtained by writing to the U.S. Forest Service, Northern Region, Federal Building, P.O. Box 7669, Missoula, MT 59807; (406)329-3511.
- The Bureau of Land Management offers land status quad maps for most areas of the state. BLM maps may be obtained by writing the BLM, P.O. Box 36800, Billings, MT 59107; (406)255-2888.
- Topographical maps may be obtained by writing the Western Distribution Branch, U.S. Geological Survey, Box 25286, Federal Center, Denver, CO 80225; (303)236-7477.

What archery equipment is legal to use during ARCHERY ONLY seasons?

- **Long Bow** - a bow of the Medieval English type with the limbs and handle one continuous piece. There is little or no curving in the limb when unstrung.
- **Recurve Bow** - a bow with laminations of wood and/or epoxy resin type material and curve forward at the limb tips.
- **Compound Bow** - a bow using a combination of re-curve and longbow limb design in which the limbs may be straight, short, laminated or epoxy type, but wider at the tips and adjustable for poundage. A type of eccentric wheels and cables assist in drawing the bow for the mechanical advantage that peak weight is reduced at full draw.
- **Crossbows** - may not be used during ARCHERY ONLY seasons. They may be used during the rifle season only.

NOTE: A questionnaire requesting your chase activity during the CHASE ONLY SEASON will be sent to you in early May 1995.

Mountain Lion License Holder:

Our records indicate that you purchased a 1994-95 mountain lion license in Montana. This survey requests information about YOUR lion hunting and chase experience during this past 1994-95 mountain lion HUNTING SEASON (Ends February 15, 1995).

AS NOTED ABOVE, YOU WILL RECEIVE A SIMILAR QUESTIONNAIRE IN EARLY MAY 1995 ABOUT THE CHASE ONLY SEASON.

The questionnaire has been changed from last year's in order to determine levels of participation in both the hunt and chase portions of the mountain lion hunting season. This questionnaire covers the period between December 1 and February 15. Filling in the information on the back requires you to distinguish between your hunting and chase activities.

For purposes of this questionnaire, please use the following definitions.

- HUNT -** If you were in an area open to hunting and had a valid hunting license, or if someone in your party had a valid hunting license, please indicate this as a hunt.
- CHASE -** If the area you were in was closed for hunting, or no one participating had a valid hunting license, please indicate this as a chase.

Failure to pick up snares or traps at the end of the trapping season or attending them in a manner that wastes furbearing animals constitutes a misdemeanor.

To prevent accidental trapping of raptors, no trap or snare may be set within 30 feet of an exposed carcass placed in a manner that can be seen by soaring raptors. **EXEMPTION:** trappers employed or contracted by a government agency in the official performance of their duties. **Exposed carcass or bait is defined** as the meat or viscera of a mammal, bird or fish, or any part thereof more than one pound in weight. Bleached bones are excluded.

Trap Identification — Metal identification tags that bear the name and address of the trapper must be fastened to all traps and snares. Tags should be attached to the end of the snare, chain, or other anchoring material at the end farthest from the portion of the device which holds the animal. Snares must also have telephone numbers included on the tag. Landowners who trap on their own lands and irrigation rights-of-way contiguous to their land do not need to tag traps or snares.

Disturbing Traps — It is unlawful to destroy, disturb or remove any trap, snare or trapped animals belonging to another trapper without permission.

Live Furbearers — Live furbearing animals may not be possessed except under the provisions of the fur farm or roadside zoo permits. It is unlawful to capture wild furbearers for fur farm stock.

Carcasses (Lynx, Wolverine, Fisher, and Swift Fox) — It is mandatory that the entire and intact carcass of all lynx, wolverine and fisher be turned in to the Department of Fish, Wildlife and Parks in good condition, at the time the pelt is presented for tagging. Good condition is defined as fresh or frozen and securely wrapped in such a manner as to have prevented decomposition in order that all tissue samples shall be suitable for lab analysis. Any lynx, wolverine or fisher pelt that is presented for tagging without the carcass in good condition shall be subject to confiscation.

The complete carcass (including pelt) of accidentally trapped swift fox must be turned in to Fish, Wildlife and Parks personnel if the animal cannot be released uninjured.

Destroying Muskrat and Beaver Houses — It is unlawful for any person to willfully destroy, open or leave open, a muskrat or beaver house. This shall not prohibit trapping in muskrat houses when authorized by the Commission.

Tagged Furbearers — A number of furbearing animals have been tagged for scientific study. If one of these animals is captured, please notify the nearest game warden or regional office of the tag number or numbers and the locality of the capture.

Non-Target Species — Protected birds or animals found in traps, uninjured, shall be released on site. Species in need of rehabilitation shall be removed and immediately presented to a Fish, Wildlife and Parks office, local warden, or biologist. Dead animals should be left at the trapping site and immediately reported to a Fish, Wildlife and Parks office or field personnel for disposition. When either a Fish, Wildlife and Parks office or field personnel cannot be reached, trappers may report the above information by calling 1-800-332-6117.

Landowner Permission — Resident trappers should obtain permission of landowners before trapping on private land. Nonresidents must obtain written permission from the landowner, lessee or their agent before trapping or snaring predatory animals and nongame wildlife on private property.

It is unlawful to set snares on private property without the landowner's consent. Snares must be set in a manner and at a time so as not to duly endanger livestock. A trapper who injures livestock in a snare is liable for damages.

GENERAL REGULATIONS (cont.)

Criminal Trespass to Property — Montana law states that lands can be closed to the public either by posting the land or through verbal communication by landowners or their agents. However, even if lands are not posted, resident trappers should seek landowner permission before pursuing any activities on private lands. If permission is granted, the landowner may revoke the permission by personal communication at any time.

Preserves, Parks, Department Lands — All state game preserves are open to trapping. Trapping on Fish, Wildlife and Parks lands and Wildlife Management Areas will be allowed by written authorization of the area manager or a department employee on lands not having a resident manager. Beaver Creek Park open to trapping by permission only obtained from Hill County Park Board.

School Trust Land — A special use license is required to trap on these lands. Contact a Department of State Lands office for further information.

Closures — All National Parks, National Wildlife Refuges, and Indian Trust or Tribal Trust lands are closed to trapping except as otherwise specified. Permits to trap on National Wildlife Refuges or Indian Reservations may be issued by the Refuge office or Indian agency.

National Wildlife Refuges — More restrictive regulations may apply to national wildlife refuges open to public trapping. For additional information on federal regulations, contact Special Agent-in-Charge, U. S. Fish and Wildlife Service, POB 25486, Denver Federal Center, Denver, CO 80225 (303-234-4612) or the local refuge manager.

Indian Reservations — Tribal governments may have adopted trapping regulations within the exterior boundaries of their respective reservations. Trappers should be aware that tribal regulations may differ from the statewide trapping regulations adopted by the Montana Department of Fish, Wildlife and Parks Commission. The question of state-tribal jurisdiction has not been resolved.

Recorded or Electronic Devices — It is unlawful to use any recorded or electrically amplified bird or animal calls or sounds or imitations of bird or animal calls or sounds to assist in the hunting, taking, killing or capturing of any wildlife except predatory animals.(M.C.A., Sec. 87-3-108).

Pelt Possession — It shall be unlawful for any fur dealer or fur dealer agent to purchase or possess any untagged marten, fisher, wolverine, bobcat, lynx or otter pelt, except those untagged furs originating outside Montana, when accompanied by an export permit or other documentation of lawful acquisition.

Export — A federal export permit is required in addition to a Montana state tag before the pelts of bobcat, lynx, and otter may be exported from the United States. Apply to U.S. Fish and Wildlife Service, 600 Central Plaza, Room 209, Great Falls, MT 59401.

Penalties — Persons convicted of knowingly taking, possessing or transporting furbearers or pelts in violation of the rules or laws, shall be fined not less than \$50 or more than \$1,000, imprisoned in the county jail for not more than 6 months, or both. In addition, such person shall forfeit his privilege to hunt, fish or trap for not less than 24 months. Civil restitution from \$100 to \$500 may be assessed for each illegal animal or pelt.

FURBEARER HARVEST SURVEY

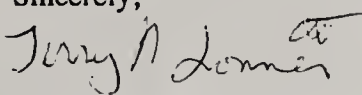

Dear Fur Harvester:

Thank you for your cooperation with the Furbearer Harvest Survey.

Although you may have already provided some information on several furbearers, which have pelt-tagging and registration requirements, you are requested to provide additional information on harvest effort and catch rate. This is a statewide survey of ALL trapping license holder activities including unsuccessful fur harvesters. This survey includes ALL your activity (trapping, hunting, hounds) related to the species listed below.

As you are aware, fur harvesting, the fur industry, and furbearer populations and their habitats are all current topics of extensive interest and discussion by various governmental and citizens' groups. The information you provide is vital to a successful furbearer management program. It provides the knowledge that supports harvest activities as a sound wildlife management strategy and assists the department in maintaining the flexibility to manage your furbearer resources within the state.

Even if you DID NOT trap or hunt, it is IMPORTANT that you so indicate. Please return this questionnaire within four weeks. THANK YOU!

Sincerely,

Terry N. Lonner
Harvest Survey Supervisor

EVEN IF YOU DID NOT TRAP OR HUNT, PLEASE ANSWER QUESTION 1
AND RETURN THIS QUESTIONNAIRE.

1. Did you trap, hunt, or use hounds during the 1994-95 furbearer season? ☐ NO ☐ YES

*QUESTION 2 REFERS TO YOUR TRAPPING ACTIVITIES;
QUESTIONS 3 AND 4 REFER TO HUNTING AND THE USE OF HOUNDS.*

2. Please report your TRAPPING activities by county in the appropriate boxes below. To calculate TRAP DAYS, add the number of days each trap was set. Example: If you had 3 traps, 2 set for 10 days, and 1 set for 4 days, 24 trap days would be indicated.
